

QUESTION

ANSWER

EXPLANATION

1. **QUESTION**

2. **ANSWER**

3. **EXPLANATION**

The correct answer is **Choice A**. The passage states that the researchers found that the more people who were in the room, the more likely they were to be influenced by the person who was speaking. This is because the more people there are, the more likely they are to be influenced by the person who is speaking. The researchers also found that the more people who were in the room, the more likely they were to be influenced by the person who was speaking.

Choice B is incorrect because the passage does not mention anything about the number of people in the room. The passage only mentions that the more people who were in the room, the more likely they were to be influenced by the person who was speaking.

Choice C is incorrect because the passage does not mention anything about the number of people in the room. The passage only mentions that the more people who were in the room, the more likely they were to be influenced by the person who was speaking.

Choice D is incorrect because the passage does not mention anything about the number of people in the room. The passage only mentions that the more people who were in the room, the more likely they were to be influenced by the person who was speaking.

Choice E is incorrect because the passage does not mention anything about the number of people in the room. The passage only mentions that the more people who were in the room, the more likely they were to be influenced by the person who was speaking.
